Research question

What recurring operating earnings support an acquisition of the standalone business versus the group?
Model IRR: Unavailable. MOIC: Unavailable. Full transaction inputs and independent review remain outstanding.

Private notes

Release verification sample note. Reconcile recurring earnings and the group perimeter before underwriting.

Diligence

Stage: Inbox. 0 / 0 tasks complete.

Next action: No next action.

Outstanding publication gates

- Map cash taxes, maintenance capex, working capital, cash and borrowings across all five years.
- Review recurring earnings and reconcile the acquisition perimeter to consolidated accounts where applicable.

- Source dated valuation, ownership, pledges and control feasibility. No live price or market capitalisation is supplied.
- Obtain financing terms and reconcile an independently reviewed transaction model before publishing returns.

Sources checked 28 October 2026. PDF page numbers include covers. Company filings remain on their publishers' websites. Private notes remain in this browser and in your chosen exports.
